Summary

IT Support Specialist and Software Developer with over 8 years of experience in high-volume, SLA-driven environments. Transitioning to software development through 42 Porto. Proven ability to optimize operational workflows, manage data integration, and engineer robust, user-centric solutions. Strong problem-solving skills with a focus on system architecture, testing and debugging, iterative improvements, and creating comprehensive documentation based on stakeholder feedback.

Technical & Language Skills

- **Tech Stack:** C, C++, Python, Bash, Shell, Debian, TCP/IP, Postgres SQL, Databases, TypeScript, React.
- **Tools & Methodologies:** Version Control, Kanban, Scrum, Git, Zendesk, Google Sheets/Excel.
- **Languages:** Spanish (C2), English (C2), Portuguese (C1).

Work Experience

Bilingual Live-Content Moderator | **Concentrix**. Porto, Portugal (Jan 2024 - May 2026)

- Engineered interactive dashboards and data analysis tools using Google Sheets, streamlining cross-functional reporting and reducing manual data entry time by roughly 80%.
- Managed high-volume queues independently with high attention to detail, consistently exceeding productivity and quality KPIs by 2.75%, maintaining an average utilization rate of 87.75%.

Bilingual Sr. Customer Support Agent | **RANDSTAD - Client: Tech Company**. Porto, Portugal (Jul 2019 - Jan 2024)

- Optimized onboarding protocols, reducing training time by 75% for 5 waves of incoming personnel.
- Delivered advanced remote troubleshooting for hardware and software under pressure, resolving an average of 25 tickets an hour.

Logistics Coordinator & IT Support | **FYSCA.** Caracas, Venezuela (Dec 2015 - Sep 2017)

- Led a 5-person technical support team, ensuring strict adherence to deadlines and SLAs.
- Coordinated complex logistical deployments across multiple sites, improving operational efficiency.

Education & Certifications

- **Software Development** | **42 Porto**. Portugal (Apr 2025 - Present)
- **Python Discovery Piscine** | **42 Porto** & **Santander Open Academy**. Portugal (Jul 2026)
- **Lic. Artes Audiovisuales** | **UNEARTE.** Venezuela (Sep 2015 - Sep 2017)

Projects

- **Minishell** | (C, Shell, Signals, I/O Routing, Collaborative Coding): A custom shell program developed in a team environment. Interprets and executes command lines, tokenizing input, piping process execution, and catching signals.

- **NetPractice** | (TCP/IP protocols, IPv4 Addressing): Practical network administration involving hands-on CIDR subnet masking, routing tables, and TCP/IP configuration.

- **Born2beroot** | (Virtualization, Debian, Process Scheduling, Sudo): A secure, minimalistic server built managing encrypted LVM partitions, UFW firewalls, SSH port configurations, data security, and strict access controls.

Volunteering

Logistics & Guest Relations | **HUELLATINA** & **CAVENPOR**. Porto, Portugal (2026)

- Demonstrated effective communication and team collaboration by managing inventory and heavy logistics for humanitarian relief efforts.
- Directed registration flow, entrance fees, and front-desk operations for fundraising events, ensuring high attention to detail.
